Dedication

We dedicate this book to Ms. Mimidas, an amazing english teacher and overall person. Never turning away a student with a question and always open for a conversation; wether about college, school, or life. Always there for us no matter what. Thank you for being a great teacher, friend and counselor. You have guided us through High School and toward our future success. You have been with us since freshmen year and have seen and helped us grow into young adults. thank you for all you have done.

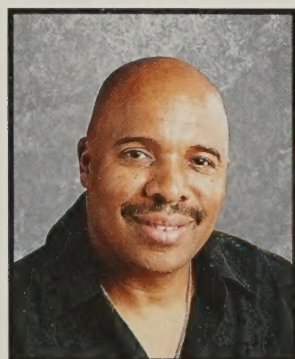

We dedicated this book to you, Mr. Gomez, the biggest Orioles and Spurs fan, the CIA agent and the greatest history teacher at SPHS. You taught us more than just history, you taught us about life. Always welcoming us into your classroom with a smile. Always calling out a hello in the hallway to every student. Your determination to ensure that no student fails will be the reason why we won't. Thank you Dr. Strange.

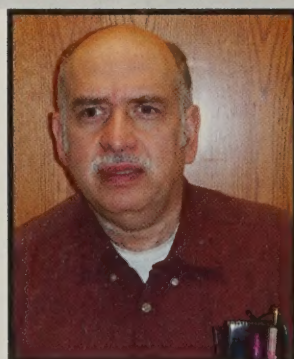

Retirement

Good bye and happy retirement to our beloved teachers and staff, on behalf of the Science Park community we will miss you and thank you for all you have done.

"Anti-ethics; the call to demystify the present concept of man as illusion, ... is the axiomatic rupture of white existence ... that formed the evaluative nexus which allows whites to claim they are the civilized guardians of the world's darker races. It is the rejection of white virtue, ...When white (in)humanity is no longer an obstacle...the oppressed are free to overthrow the principles that suggest their paths to liberation are ...not possible."

The end is here. We have finally made it to the next step in life which includes: adulthood, responsibility, and multiple changes. I'll remember the long nights of homework, the stressful test days, and bickering with teachers. But I'll also remember playing sports, my friends, my teachers, and everyone at Science Park who watched me grow into the funny, long haired, caring, responsible man I am today. I'm the person that pours the milk before the cereal. I was taught not to conform but to stand out. Society and the world is a scary place, but it's not much different then pouring the milk before the cereal.

To Our Wonderful Class Advisors:

On behalf of all the seniors, we would like to thank you for your endeavors and contributions in making a great senior year possible for the Class of 2016. As our advisors, you have helped us achieve and shape the way we depart from this school, allowing for memorable class dances and events. We acknowledge the hard work you have put in to guide us and ensured that our aspirations were met this year. As we move onto our next step in our educational careers, we can look in retrospect to our wonderful experience here, at Science Park High School. As the class of 2016, we would like to extend a huge thank you for your leadership as our class advisors and efforts and ensuring a prosperous and memorable high school experience.

Mr. Avagliano Senior Class Co-Advisor

Working with Ms. Panasiti, the Senior Class Officers, and our many volunteers has meant a lot to me over the past few years. We've had a fair share of challenges along with many successes. I feel very lucky to have become closer with colleagues and gotten to see this class grow over the years into confident young adults poised for their next challenge. Thank you for allowing me to help you through these years.

'16

Mrs. Panasiti Senior Class Co-Advisor

These last two years have taught me that being an advisor is not only completing forms or submitting paperwork but working as a team to accomplish goals. As a co-advisor, I was able to learn more from some students and build great relationships. There were overwhelming (crazy) days but thanks to Mr. Avagliano and the constant help of some seniors, as a team, we were able to surpass the obstacles encountered to arrive where we wanted to be. Seniors, I wish you the best. My door will always be open for you.
